

ECO-FRIENDLY

A “Green Photographer” can be defined as one who uses renewable resources (environmentally sustainable) and is accountable for the human resource aspect of their activities (socially responsible).

A Few ways we are a GREEN Company

1. We use rechargeable batteries
2. Recycle at home and in our studio
3. Offer prints, and products and albums on fine art recycled paper (checkout some in our gallery)
4. Online proofing and forms for clients to include payments
5. Direct shipping to clients and we recycle shipping supplies
6. Eco- Friendly biodegradable cleaning products in both home and studio
7. LED light bulbs in our lighting
8. We used recycled paper for printing and recycled packaging for our clients
9. Sell hand made items from local and other small businesses
10. Green Bride Certified
11. Constant research on products and how they are GREEN and if they are acceptable quality
12. Educate others and companies
13. Offer thumb drives instead of CDs
14. Purchase used or vintage props and office furniture
15. Eat Organic and healthy and buy from local farmers
16. Travel and make as few trips as possible to preserve and utilize GREEN Commuting
17. Turn off lights and unplug items when not in use
18. offices supplies are GREEN www.buyonlinenow.com/green-products.asp
