## *Evening studio & Photo Memory Album*

Our night studio and memory album service is proving to be very popular. This is an alternative to the vastly more expensive "photo booth".

This is how it works

We set up our mobile studio including lighting, background printer and monitor.

We take photos of your guests that are mounted into a memory album.

Your guests write in a message to you to accompany their photo.

At the end of the evening your memory album is presented to you with up to 60 photos as an instant memento of your wedding day. Something to read in your hotel suite or on your honeymoon ?

We have three options available for night Studio hire.

1. Independent to any wedding photography £370.00
2. If you have already commissioned Emotional Moments for all day Coverage £250.00
3. Experience tells us that a large percentage of guests want a copy of their photo to take home. It's not often all family members are dressed in their finest and have a photo together.

If you allow your guests to purchase photos at your wedding celebrations we reduce the cost of the service by 50% (Guests would receive an 8" x 6" mounted print priced at £6.00)

So, independent to any wedding photography option £185.00

To add to your all day service with "guests purchase option". £125.00

This is amazing value when you consider the average cost of a photo booth is around £600.00

After the date of your wedding your photos will be presented to you on a disc.

I am happy to make any additional adjustments to images that you request such as converting the images to black and white, cropping and removing unwanted distractions where possible.

---

## Before your wedding day

Before the day we hold a consultation with you to build up an action plan for the day. This is to sort out timings, details of the bridal party, group photos you want and to see what ideas you may want to include for yourself. We fill out a small questionnaire with these and any other details.

---

## On the wedding day

What I always explain to brides and grooms is to remember that this is a wedding day and not a photo shoot. We do not want to be too intrusive on the day because you have many other people to consider who have come just to celebrate with you. So the purpose of our pre-wedding consultation is to find the little pockets of time where we can take the photos that you want.

I always say that if you give me the time I will give you the beautiful photos you want so we respectfully ask you to give us as much time as you can.

---

## Uncle Bob

This is the name given in the trade to the family relative who has the "big camera". Almost every wedding has one and uncle Bob normally stands looking over my shoulder taking the same photos I am after I have set up the groups.

I have no problem with this apart from when we just have the bride and groom. Then I respectfully insist that myself and my assistant have exclusive access to the bride and groom. Uncle bob can be a distraction in this situation and eyes start to wander between him and myself thus using the valuable time we have to capture the moments.

## Testimonials

Over the years we have had many happy clients. People who come back to us after the wedding for, amongst other things, maternity, new born baby and baptism photos. We love to build relationships with our clients. Below are just a few of the testimonials we have received either by letter, text message or messages through our web page or Facebook page.
