At home

A

On location

We'll meet you at a favourite place on a sunny day and join in while you kick about in the leaves.

Here are a few suggested locations if you're stuck:

The wild flower farm at Langar

The woods at Lowdham Grange (see opposite)

Wollaton Park

Nottingham University campus

Trent Bridge embankment

The towpath at Plungar (see next page)

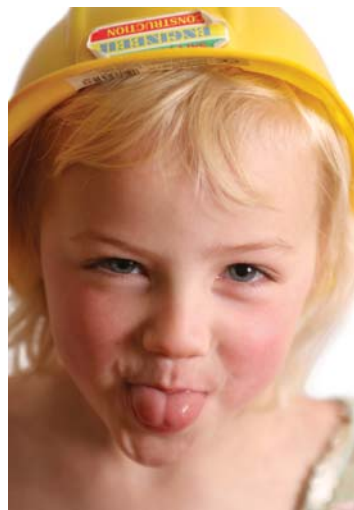

B

In the studio

Come to us at our studio darling... ok so it's our local village hall really.

Truth is, we don't like being tied to one place, so if we need a studio setting we just hire the space, set up our portable kit and hey presto! Loads of room for larger family groups and for the kids to jump around.

Lights, camera, tea urn!

C

At home

We come to you and take shots in the comfort of your own home/garden. Ideal for busy families.

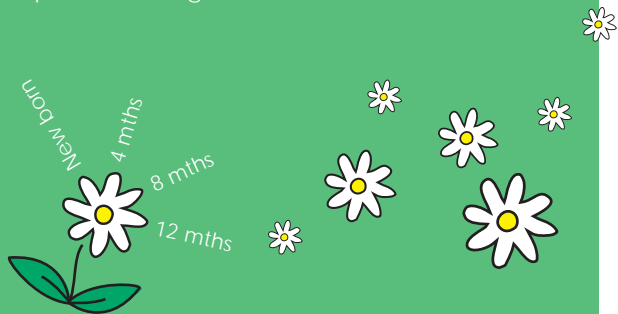

2 Baby's first year

Track your child's development with four photo sessions over their first 12 months.

Includes all four sessions, a set of mini prints from each session and a 50x50cm multi aperture frame of your four favourite portraits at the end of the 12 months.

Shoots can incorporate portraits with parents/siblings.

* All four portraits here were shot in baby's own home

3 Kids' parties

✿ Option 1. We simply come along to your party and take shots of the kids having fun.

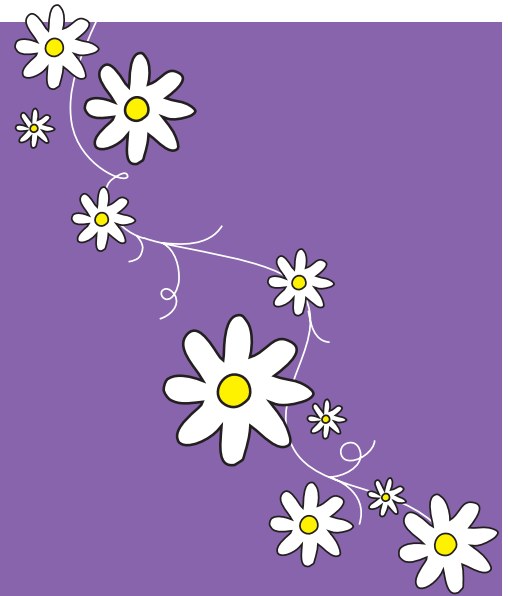

✿✿ Option 2. As above but including a group portrait.

✿✿✿ Option 3. Choose one of our themed photo-parties and let us do all the work for you!

- Girls makeover party (see next page)
- Boys football party
- Face painting party
- Magic party

Based at Plungar village hall, includes venue decoration, entertainment, refreshments, goody bags, reportage photo coverage, studio shoot, framed print and thank you cards.

4 Nurseries

Instead of traditional formal portraits, we take reportage shots of the kids as they play and learn.
