

STORYBOOKS

We have two types of high quality storybooks, the classic and the infinity. The pages are made of the finest 210gsm heavyweight, silk coated paper and they are bound using the latest side stitching technology giving strength and durability unsurpassed by all others.

The difference between the two storybooks being that the unique hinged pages allow your continuous designs to be displayed across the "lay flat" pages with virtually no image loss in the centre.

The storybooks come with a hardback cover which is photographically printed and laminated with either gloss or matt finish.
