## *Bellissimo Albums*

Outstanding in quality and contemporary design the Bellissimo album is extremely popular and very fashionable!

This album will certainly wow your guests when they see it! Complete with a glossy hard back acrylic cover you will want to display this album on your coffee table! Outstanding in presentation this album offers a great mixture of sizes. For example you may select a series of smaller photographs of bridal preparations and then a full page panoramic photograph of you with all the guests you invited to the wedding. Simon creates a bespoke album for you that you will treasure for years to come.
