

**Payments are accepted by all major debit and credit cards, personal checks and cash.**

**BOOKING YOUR WEDDING DATE Payment & Terms:** A deposit of \$ \_\_\_\_\_ is required to book your wedding package. Dates will not be held or secured without payment of a deposit. Dates during the main wedding season (March – October) will often book a full year in advance. There is no guarantee how long a certain date will remain open. A payment of 50% of the remaining balance is due 30 days before the date of your wedding and the remaining balance is due on or before your wedding date.

**Area of Service & Travel:** There is no fee for travel within a 50 miles radius (100 miles roundtrip) of Utica, MS. If your wedding or event is outside of the 50 miles radius there is a \$50 base travel fee and you will be given an exact quote after your consult. Events which require an overnight stay will incur additional charges for lodging as well, this will be discussed during your consult.

Sales Tax will be added to all purchases.

**Photography Coverage:** Please note your “coverage hours” began when the first photo is taken. When estimating the amount of coverage hours needed, don’t forget to allow travel time (switching venues, if applicable) and about 30 minutes to 1 hour to shoot Wedding Party Shots. Really creative and spontaneous groups get so caught up in the picture fun that their time flies by.

**Coverage Overage:** *Time spent working outside of the initial requested time will be invoiced to the client if a reasonable explanation is not provided.* These are unknown delays which cause the TKO professionals to work longer than expected, examples such as starting the wedding 1 hour or more late, wedding party not arriving at the designated time for their pre-ceremony shots, slow reception schedule (these are delays associated with not being available to shoot the shots for the first dance, cutting of the cake, etc.). Delays will cause the photographer and even the videographer to shave/rush through the necessary shots in which are needed to create your wedding day memorabilia. Delays will bill at \$75/a hour.

**Additional Days of Coverage:** Rehearsal coverage and any other dates if combined with a wedding package are \$175, plus travel if applicable. These dates would be needed as early as possible.

**Shipping:** Purchased items may be picked up and can be delivered if you are within a 50 mile radius of Utica, MS. If you opt to have your items shipped then you will incur this cost, we will discuss your options during your consultation.

**ALL PRICES ARE SUBJECT TO CHANGE AT ANYTIME,** but if you have booked your wedding your prices are locked in at the rates offered at that time. No changes will affect any client who has paid their full deposit to retain our services. TKO Productions honor verbal and written quotes up to 14 days. If a client has not fully retained our services then they are subject to the new rates.

## Products and Services

Photo CD or flash drive will include all of your images including quests fun shots (if selected), designer images uniquely customized for each bride and groom, collages and FB images (images designed for sharing).

**Printing from your Photo CD:** The JPG files on your photo CD or flash drive are the exact same files used for your 4x6 wedding prints. There is no guarantee, however, that prints you make yourself or have printed from these files will look exactly like the prints that are provided to you in your wedding package. Color, clarity, brightness, overall quality, will vary depending on where the prints are developed. These differences are due to inconsistencies in the way that different photo printers will interpret the color information in the JPG file. Low cost photo labs (Wal-Mart, Sams, Walgreens, etc.) can often produce good quality prints but the color and overall quality will vary with each different printing machine and the way it is calibrated and maintained. To get the best results you should print the images with all automatic enhancement features turned off. The files are already color balanced and edited for the best appearance. If the software at the printer tries to enhance what has already been enhanced, you may get prints with inaccurate color and tone. The best advice, if you are having many prints made from your CD at a particular photo printer, is to have one or two prints made and compare them to the original prints provided by TKO Productions. If you are satisfied with the prints then go ahead and get the remainder. If you are not satisfied with the results then talk with the print manager or try another location. Honestly, my clients do it all the time with no problems that I'm aware of.

**Online Wedding Gallery:** All wedding packages include an online gallery of your wedding pictures so that you can easily share your wedding with friends and family worldwide. Web galleries are normally online within 10 days of your wedding. Once your album is ready, you will be contacted with your password to view the pictures. Individuals can also contact the photographer directly to purchase any of the images in your web gallery.

**Creative techniques:** There are a wide range of creative techniques that can be applied to your photographs and I provide you with an assortment of them all. I spend a lot of time on each my wedding photos trying to come up with unique designer images basing off of the personalities of the brides and grooms. I will be contacting you with updates and progress reports while I'm working on your pictures just to see if you have any suggestions or concerns.
