**\$150**

- 1.5 hours
- Up to 4 wardrobe changes
- Retouching
- 12 digital images (high res)

*Inquire directly for customized pricing on staff or conference headshot pricing.*

## ***Headshot Wardrobe Tips...***

### **Fit**

*Clothing should be well-tailored and fit well, but not too tight or too loose. Baggy clothing can make you look larger in photos, while tight clothing can cause bulging.*

### **Fabric**

*Avoid clingy or shiny fabrics, like thin, stretchy polyester or velvet, which can highlight bumps and creases.*

### **Color**

*Solid colors are generally more flattering than patterns and don't distract from your face. You can also consider colors that contrast with your skin tone.*

### **Accessories**

*Limit accessories to simple jewelry, like a nice tie or simple necklace. Other jewelry or accessories may not be visible in the photo.*

### **Shirts**

*Avoid transparent tops, and if you do wear a see-through top, consider layering it with a blazer or your favorite top. Longer shirts can elongate your torso and hide mid-section insecurities.*

### **Jackets and suits**

*Avoid shoulder pads, which can make you look boxy and wide.*

### **Clothing condition**

*Avoid older, worn-out clothing, especially brightly colored clothes that may fade or pill.*
